EXECUTIVE SUMMARY

Fresh Graduate in Informatics Engineering from Universitas Airlangga with professional experience in Artificial Intelligence, Data Analytics, Business Intelligence, and Full-Stack Web Development. Skilled in developing AI-powered solutions, analyzing complex datasets, building interactive dashboards, designing data-driven applications, and delivering actionable insights to support business decision-making. Experienced in transforming business requirements into scalable digital solutions through end-to-end development, from backend systems and databases to modern web interfaces. Strong analytical, communication, and problem-solving abilities with a passion for leveraging AI, data, and technology to improve processes, drive innovation, and support organizational growth.

EDUCATION

Airlangga University | Informatics Engineering | 2022 - Present
Cumulative GPA : 3.66/4.0

MTS Darul Ulum | 2017 - 2019

Graduated with the predicate of being the 1st place winner in parallel.

MAN 2 Mojokerto | Mathematics and Sains (MIPA) | 2019 - 2022

Graduated with the predicate of being the runner up

AWARDS

High-achieving students of the Vocational Faculty at Universitas Airlangga

- Recognized as one of the top high-achieving students (selected from 50 students) in the Vocational Faculty.

SERTIFICATIONS

- **Data Scientist – Badan Nasional Sertifikasi Profesi, 2025**
- **Code Generation and Optimization Using IBM Granite – IBM, 2025**

PROJECT AND WORK EXPERIENCE

PT QLCOM Solusi Bisnis Digital AI & Business Intelligence Developer (ERP)

2025 - present

1. Automation & Integration

- **Face Recognition Attendance:** Developed an automated biometric system for accurate and efficient employee time-tracking.
- **OCR Invoice Automation:** Built an automated data extraction pipeline for invoices to streamline financial administration.

2. NLP & Speech Technology

- **QL-Chatbot & Knowledge Base:** Designed an intelligent chatbot integrated with corporate knowledge bases for automated customer support.
- **Speech & Voice Recognition:** Developed STT (Speech-to-Text) models to convert voice commands and audio documentation into digital text.

3. Data Science & Business Intelligence

- **Sales Analytics & Forecasting:** Engineered predictive models to analyze historical trends and optimize strategic sales targets.
- **Market Basket Analysis:** Implemented association algorithms to identify consumer buying patterns for cross-selling strategies.
- **Risk Scoring System:** Developed ML-based risk assessment models to mitigate potential business and credit losses.
- **Big Data Processing:** Managed and processed large-scale datasets to extract actionable business insights.

4. Integrated Systems

- **AI System Integration:** Developed AI logic and data integration for POS (Monalisa) and specialized business platforms (Bosbaut).

5. Business Intelligence Dashboard Development

- Developed interactive business dashboards for marketing, sales, and financial analysis to monitor sales performance, customer behavior, profit & loss, balance sheets, cash flow, and supervisor performance. Built end-to-end dashboard systems including backend, frontend, and data processing to transform complex datasets into actionable business insights and user-friendly visual analytics.

Data Science and Machine Learning Project

2024-2025

Worked on several AI-based projects involving data collection, cleaning, and processing to support predictive modeling and web integration. Some projects include:

- **Heart Disease Prediction System** – Analyzed medical datasets to train classification models.
- **Lung Cancer Detection** – Processed and visualized symptom-based survey data to predict risk levels.
- **Indonesian Food Dataset Classification** – Cleaned and structured regional food data for AI-based recommendation.
- **Customer Data Analytics** – Conducted preprocessing and segmentation for customer behavior analysis.
- These projects enhanced my proficiency in data wrangling, visualization, and integration of machine learning models into web applications.

BID TIK POLDA JAWA TIMUR

During my internship at the Information and Communication Technology Division of the East Java Regional Police, I was involved in IT system development and learned about data security practices. My responsibilities included:

- Supporting system maintenance and assisting in the development of internal digital solutions.
- Learning and implementing cybersecurity practices, particularly in data protection and system security management.
- This experience strengthened my understanding of IT infrastructure, data confidentiality, and security management within government institutions.

International Short Course Program – Information Technology and Community Engagement

Mei 2025

Location : Malaysia

Participated in a two-week international program focused on Information Technology, including topics such as the Internet of Things (IoT), smart systems, and digital solutions. The program also included community service activities, where I applied technology to address real-world social issues while collaborating with international peers.

MATCHING FUND 2023**Jun 2023 - April 2024****Research Assistantship & Research Administration**

I participated in research organized by the Directorate General of Higher Education and the Ministry of Research and Technology, then my research team and I collaborated with PT JASA MARGA PERSERO TBK. in Jakarta, Indonesia, in developing the "Genius Parking Space Detection System."

2023**MAWAPRES 2023**

I was selected as the representative of high-achieving students from my study program, which is Informatics Engineering. I participated as a contestant in the selection of outstanding students at the Faculty level.

PRIVATE TUTORING**2021 - Present****Private Tutor**

I offer private tutoring services for all subjects ranging from elementary to high school levels. My teaching incorporates both the Merdeka Curriculum and international curricula, including the Cambridge Curriculum. I tailor my approach to meet the individual needs of each student, ensuring comprehensive understanding and academic success across various educational frameworks."

DIPP UNAIR**2024**

I have established connections with one of the institutions at Universitas Airlangga, namely DIPP Unair, where I undertake various tasks including inputting course data of Universitas Airlangga students from several faculties.

COMMITTEES AND ORGANIZATIONS EXPERIENCE**AIRLANGGA INTERNATIONAL CONVERENCE (Staff)****November 2023**

I serve as a committee member in this event, responsible for ensuring the comfort of foreign guests who are delegates, as well as being able to communicate effectively with foreign student delegates.

AIRLANGGA UNIVERSITY FACULTY BEM (Staff)**2023**

I am a staff from the BEM Faculty Engaged in religion in the social field. In this organization, I participate in various activities and also take part in serving as a committee member.

Faculty Ambassador Selection 2023 (Staff)**2023**

Become a commite in the field of equipment in the election of faculty ambassadors.

HIMTI CARES 2023 (Chief Executive)**September 2023**

Community service in a village in Sidoarjo Regency, where we conducted various activities including the digitization of small businesses to increase their marketing education, and other beneficial initiatives.

HIMA INFORMATICS ENGINEERING (Department secretary)**2022 - Present**

I am a board member in this Association, where the Association is involved in several beneficial activities.

AMERTA UNAIR (Staff)**August 2023**

This event is the welcoming activity for new students at Universitas Airlangga, where we collaborate directly with the Directorate of Education at UNAIR. Here, I work as a public relations staff, ensuring the success of this event.

2023**INISIALISASI 2023 (Coordinator)**

This event is the welcoming event for new students of Informatics Engineering at Universitas Airlangga. Here, I work as the Secretariat Coordinator, ensuring the success of the event.

MAPANZA UNAIR**2022**

I interned at the Student Activity Unit (UK) Mapanza at Airlangga University. This organization is actively involved in addressing issues related to the abuse of narcotics, psychotropics, addictive substances, and the spread of HIV/AIDS. Known as UK Mapanza Universitas Airlangga, it is a socially conscious organization dedicated to developing innovations and contributing to efforts to reduce substance abuse and the spread of HIV/AIDS

HIMTI CARES VOL 2 (Staff)**September 2023**

Community service in a village in Mojokerto Regency, where we conducted various activities including the digitization of small businesses to increase their visibility through a website, marketing education, and other beneficial initiatives.

LANGUAGE

- Indonesian (fluent/native level)
- English (intermediate level)
- Arabic (professional level)

KEY COMPETENCIES

- Management Skills
- Strategic planning
- Client relationships
- Communication Skills
- Negotiations
- Business development
